

Tsunamis in the Mediterranean Sea 2000 B.C.-2000 A.D.

By Sergey L. Soloviev

Springer. Paperback. Book Condition: New. Paperback. 239 pages. Dimensions: 9.2in. x 6.3in. x 0.6in. Annals of natural disasters have always caused common interest. Scientists and specialists of various domains, teachers, students, post-graduates, journalists . . . and merely inquisitive can find useful and didactic information in such annals. Sad experience of the natural disasters endured gives very important material for humanity. It allows us not only to understand better the phenomenon itself, but also to prepare ourselves for future cataclysms, which our Mother-Nature is so rich in. The book by Sergey Soloviev and a group of his collaborators represents a detailed description of tsunami waves and accompanying phenomena in the Mediterranean Sea over a period of approximately four thousand years. Sergey Soloviev, the founder and recognised leader of the Russian scientific school of tsunami researchers, was unable to see the publication of this book, passing away on March 9, 1994. However, his ample experience in investigation and systematisation of tsunami waves for the Pacific area Soloviev and Go, 1974, 1975; Soloviev, Go and Kim, 1986 has been widely used in compiling this book. The Mediterranean coasts are the cradle of civilisation. Written accounts of past disasters in this region of the Earth...
